Bowling / GoNoodle - Have a need for mixing things up? This combo class provides you with the flexibility of not only practicing the fundamentals of bowling, but also playing educational, movement oriented games. In this class your child will have the opportunity to join our MSC ESP Bowling League Team. We meet on Wednesday evenings from 6-7 at LTA. This will be our third time doing the league and the kids have loved it. You don't have to be on the league to sign up for this class.

Cardboard Challenge: Hot Wheels Edition - If you like cars, ramps and racing, this is the class for you! Our Cardboard Challenge class is combining with Hot Wheels Speedometry. We will be building our very own Hot Wheels City, filled with ramps, garages, and more to accelerate learning! This class will be filled with imagination and action.

Cheerleading - Cheer is an upbeat movement class where students learn techniques for cheer and tumbling. Sign up quickly, this class will fill up fast!

Clay Creations - Get messy in this clay creations class. Learn how to handle, shape and mold lumps of clay into fantastic works of art!

Cooking (\$25) – Students will love cooking on our edible cooking cart. Practice measuring, counting, mixing, timing and of course eating. Students will be cooking dishes such as, enchiladas, stuffed shells and so much more. They will also create a cookbook to bring home at the end of the semester.

Dance Club - Express yourself and get your body moving in Dance Club! This class will be taught by Ms. Taylor, an MTSU dance team member. Your child will learn several genres of dance.

Design Squad 3.0 - Students will use the concepts of S.T.E.A.M. to solve design challenges and compete in exciting contests. Build bridges, construct cars, erect buildings and grow your brain!

Digital Journaling - This class allows students to channel their creativity into their very own digital journal! Students will learn how to combine up and coming technology with their own creativity and self expression!

Dino Digging - Students will study, investigate, make and dig for fossils. If dinosaurs are your thing, come join this enrichment!

DIY / Snack Cuisine - Do it yourself! With this class, students have the opportunity not only to create DIY projects, but also put on their chef hats and create fun and easy snacks that they can later make on their own at home!

ESP-N Games - Students will learn the fundamentals of team-based sports and personal

competition while keeping up to date of current sports happenings!

Explosive Science - Looking for a class that will WOW you? Look no further than our explosive science class where the students will have the opportunity to dig in and play with chemistry!

Flag Football - This class covers skills, rules and strategies, as well as emphasizes individual and team offensive and defensive concepts of team organization and play. This enrichment is aimed to help develop knowledge of the rules, skills, positions and strategies of flag football. This class will be taught by our very own Officer Williams. This class will conclude with games against other ESP Sites.

Galaxy Quest - Explore our galaxy from planets down to the life on Earth in this exploratory science class!

Get Fit / Run Club - We share a love for exercise and play in this class. We cannot wait to get moving and learn healthy lifestyle tips and tricks for everyday learning!

GoNoodle - Get moving in our GoNoodle class! If your student needs to get out their wiggles and move their bodies, this is the perfect class for them! This class will keep your kids engaged and motivated with short interactive activities.

Homework / eLearn - Finish your homework and sharpen your skills in homework help! Students will receive help with all types of homework, including math and literacy. When finished with homework, students will do Lexia or iReady using technology.

Key Club - This class will encourage your child to be a leader through serving and helping others. Our goal is to help everyone create a better school climate by spreading awareness and increasing engagement in kind actions. Come be a part of the movement!

Lacrosse-You don't want to miss this team sport played with a lacrosse stick and lacrosse ball. Players use the stick to carry, pass, catch and shoot the ball into the goal.

Lego WeDo Robotics / Code.org - With the use of iPads, Legos, and some circuit boards, our students are able to create and code their very own robotics! They will pair up and get creative with this cutting edge technology; you do not want to miss out on this amazing class!

Literacy Leaders - In this class, the students will learn the foundational skills of reading, letters, letter sounds, and sight words! Also, they will create literacy based projects.

Lit Circles/Pen Pals-The students will have various discussions and make their very own power points. We will be corresponding with others through letters, cards and crafts.

Little Picassos-Join this art class to learn about famous artists, their artwork and create your very own masterpieces.

Math Mania - If numbers are your thing, or you need extra practice. Math Mania is the best way to start your morning! Our teachers will make math exciting and fun through original games and through technology..

Mixed Media Art-Mixed Media Art is a visual art form that combines a variety of media into one single art form. We will create masterpieces using ink, paints, highlighter, pencils and more.

Ninja Warrior - Come join us in learning agility, stealth, self-discipline, and body awareness. We can't wait to teach you the mysterious techniques and philosophy of the ninja, and be immersed in our ninja warrior class.

Quirkles - Quirkles offers a fresh way, different than most regular classrooms, to investigate literacy and science that engages children with inquiry based, hands-on activities.

Reader's Theater - In this dramatic arts class, the students will choose, cast, produce and direct a play based on a story of their choice!

Science Explosion - In this exciting and hands-on class, students will be encouraged to ask questions, make mistakes, and get messy in order to discover and learn about chemistry and the world around them!

Snack Cuisine-Learn how to make all kinds of yummy snacks that will impress everyone.

Soccer Club (\$25) – ESP has partnered with Murfreesboro Soccer Club to bring this great club to your children. Get physical and learn the fundamentals of this favorite sport.

This class includes energetic, all-inclusive games that teach young kids the basics about playing with a group from our staff and certified coaches!

There will be a tournament against other ESP Sites.

Story Stones-Explore the world of creative writing in this class while we develop stories and paint our rocks. We cannot wait for our students to use their imagination to be creative!

Tennis-Students will loving playing and learning the game of tennis.

Yoga - Start your morning off right with some stretching and meditation in our yoga class! The students will learn basic yoga practices while strengthening their bodies through balance and mindfulness.
